

Comme discuté, la Corée.

Pour l'Europe, nous allons devoir adapter certaines mesures, notamment à cause des données de santé.

Below are the actions that we are taking in Korea to fight against Coronavirus that has been spreading rapidly over the last few days.

1. Control all access to company

- ➔ Monitoring and Recording temperature of all people(employees, visitors, truck drivers) coming to company.
It's mandatory to wear a mask and distribute mask to visitor not wearing one.
Placed hand sanitizers for all visitors in the security office

- 1) Monitoring temperature on a daily basis

- 2) Recording the temperature for all employees and sanitizer on a daily basis in security office
